Statement of Purpose:

Statement of Purpose : - With a strong foundation in pharmacy, complemented by extensive training in data science, artificial intelligence, and business technologies, I am applying to the Master of Science in Data Science and Management (MSDSM) program at the Indian Institute of Management Amritsar. My academic excellence, demonstrated by a Bachelor of Pharmacy degree with Distinction (CGPA 8.00/10.00) from ISF College of Pharmacy, Moga, combined with my performance in the CAT 2023 examination, positions me as a candidate who can thrive in the interdisciplinary environment of your esteemed program. My academic journey began with a solid foundation in scientific methodology and analytical thinking through my pharmacy education. This training instilled in me a rigorous approach to research, data analysis, and problem-solving—skills that are directly transferable to the field of data science. My performance in the CAT 2023 examination further demonstrates my aptitude for quantitative reasoning and analytical thinking, essential qualities for success in a data science program. Beyond my formal education, I have systematically built expertise in areas directly relevant to data science and management through a series of specialized certifications: Technical Proficiency Data Analysis Tools: Advanced Excel Course and Power BI Data Modelling (STP Computer Education and Simplilearn) Statistical Analysis: Introduction to Minitab Programming Fundamentals: HTML and CSS 3 Courses (STP Computer Education) Artificial Intelligence: Generative AI Mastery and Deep Learning Microlearning (Board Infinity) Business and Technology Integration Financial Technology: International Financial Technology Certification (The Digital Adda, Ministry of MSME) Business Applications of AI: ChatGPT & AI in Microsoft Office (Skill Nation) Business Development: How to Build and Grow Your Business Online (Lectera) Finance and Investment: A2Z of Finance and A2Z of Stock Market for Beginners Digital Literacy and Security Office Productivity: MS Office Course (STP Computer Education) Cybersecurity Awareness: Social Engineering Attacks Quiz (Ministry of Electronics & Information Technology) This diverse portfolio of certifications demonstrates my commitment to continuous learning and my ability to bridge technical expertise with business applications—a critical skill set for the MSDSM program. My interest in pursuing the MSDSM program at IIM Amritsar stems from a desire to formalize my self-directed learning in data science and to develop the managerial skills necessary to lead data-driven initiatives in organizations. The program's curriculum, which balances technical depth with management breadth, aligns perfectly with my career aspirations. What particularly attracts me to IIM Amritsar's program is: Interdisciplinary Approach: The integration of data science techniques with management principles provides a holistic education that prepares graduates to not only analyze data but also translate insights into strategic business decisions. Industry Connections: IIM Amritsar's strong ties to industry partners offer valuable networking opportunities and exposure to real-world applications of data science in business contexts. Research Opportunities: The

chance to work with faculty on cutting-edge research projects will deepen my understanding of advanced data science concepts and their business applications. Prestigious Faculty: Learning from distinguished professors who are experts in their fields will provide me with mentorship and guidance that will be invaluable for my professional development. pon completing the MSDSM program, I aim to pursue a career at the intersection of healthcare analytics and business strategy. My background in pharmacy gives me a unique perspective on healthcare data, while my training in data science and business technologies equips me with the tools to extract meaningful insights from this data. Specifically, I aspire to work in roles such as Healthcare Analytics Manager, Pharmaceutical Business Intelligence Director, or Health Tech Consultant, where I can leverage data-driven insights to improve patient outcomes while optimizing business operations. I believe I can contribute significantly to the MSDSM program through:

Interdisciplinary Perspective: My background in pharmacy, combined with my training in data science and business technologies, offers a unique viewpoint that can enrich class discussions and team projects.

Practical Experience: My hands-on experience with various data analysis tools and AI applications can be shared with peers during collaborative projects.

Continuous Learning Mindset: My track record of pursuing diverse certifications demonstrates my commitment to lifelong learning—a value that aligns with IIM Amritsar's ethos. The MSDSM program at IIM Amritsar represents a crucial stepping stone in my journey toward becoming a data science leader who can translate technical insights into business value. My academic excellence, demonstrated by my Bachelor of Pharmacy degree with Distinction and my performance in the CAT 2023 examination, combined with my diverse portfolio of certifications, makes me a well-rounded candidate for this program. I am confident that the combination of my scientific background, technical skills, and business interest makes me an ideal candidate for the MSDSM program. I look forward to the opportunity to contribute to and learn from the vibrant academic community at IIM Amritsar.
